

The Beeman Buzz

From the Principal's Office

October 2018

One month of school complete and we are all starting learn our new routines. This month we will discuss bullying in our school-wide meetings. The focus will be on how to identify bullying behavior and not just mean or annoying behavior and how to deal with all three.

As a reminder to families, our circular driveway is for live drop-off only in the morning. This means you are expected to move all the way to the front of the line (right by the path that leads to the back of the building or playground) and drop-off your student without leaving your car. If you need to walk your child to the door or park you should find a parking spot at the entrance and walk up.

*Jodi Gennodie
Principal*
